

FIG. 1

FIG.2

Figure 1 is a perspective view of a resin composition 10. The composition consists of a matrix 51 and a network 53. The network 53 is formed by a plurality of particles 22 (22a, 22b, 22c) and a network 53 (53a, 53b, 53c). The particles 22 are dispersed in the matrix 51. The network 53 is a three-dimensional network structure. A cross-section 13a is indicated by an arrow.
